For all applications

Please describe below why you consider that the extent of the neighbourhood area is appropriate.

If possible, please provide a copy of the minutes of the Parish Council meeting(s) at which it was agreed that the whole/part of the Parish council area could be included in the Neighbourhood Area and that the applicant Parish Council were authorised to act as the lead authority on Neighbourhood Planning work.

The current area designation relates to the review of the made Kelsall & Willington Neighbourhood Plan. The whole of Kelsall parish area was already included in the original area.

For this review we would like to extend the NP area to the whole of Willington Parish, at the request of Willington Parish Council. This is for the sake of consistency, to simplify handling of any planning matters in the Parish.

The original NP area was designated before the last review of administrative boundaries (2015), when the Delamere & Oakmere and Ashton Hayes area were in Kelsall Parish. As they both are more closely related to the built-up area of Kelsall, it was decided to keep them in the NP area. This logic still applies.

However we have decided to remove a small area of Tarvin Parish (in Oscroft), which was part of the original NP Area in 2017. Again this is at the request of Tarvin Parish Council, who are updating their own Neighbourhood Plan and would like the boundaries to match the current parish boundaries.

7) Declaration

I hereby apply to designate a Neighbourhood Area as described on this form and the accompanying plan.

HIGHWAYS

Speeding Update – It was reported that the Amber flashing lights that we reported as not working outside the school was also raised with the Highways Engineer and they confirmed that there is a technical issue with the amber flashing lights relating to the closure of TWM which has resulted in the lights not working. CWaC are currently looking at what action they take – either speak to Roadside Technology or install amber lights from another provider – therefore the advisory 20mph will not be installed until this issue is rectified – this affects the 20mph advisory outside the school and not the Parish Council's 20mph speed reduction.

Information had been sought from CWaC and Willington Parish Council in relation to the installation of pole mounted VAS Machines.

The clerk reported that following speaking with the Highways Engineer CWaC's stance was that if the Parish Council purchased a post mounted SID and installed two poles then when the SID was not in use in one location the pole would need to be removed. This was felt not to be a workable solution as there would be significant costs to the Parish Council for this. Therefore, it was discussed and decided that the Parish Council should purchase one pole mounted SID and locate it on Church Road and rotate it every two months.

It was proposed by Cllr Eadie and seconded by Cllr Dossett that the Parish Council purchase a solar panel, pole mounted SID, this was unanimously **RESOLVED 26/013**.

ACTION: Clerk to find out from CWaC how much it will cost to install a pole or provide another contractor to install the pole.

ENVIRONMENT

Pink Poo Campaign – it was reported that the Pink Poo Campaign run in April around the village had identified that Whitegate Lane footpath down to the kissing gate was by the far the worst location for dog waste not being removed. Cllr Varey undertook to include something in the next edition of Around Ashton highlighting the issues and reminding people to that they must pick up any dog foul waste.
